SKILLS

Languages   Python, R, SQL, SAS, Stata, VBA, HTML, CSS
Software/Tools   PowerBI, Tableau, Excel, ArcGIS, GitHub, LaTeX

EXPERIENCE

Teaching Assistant
UNIVERSITY OF TORONTO

Sep. 2021 - Present
Toronto, ON

- **Lead tutorials** and office hours for undergraduate statistics courses to solidify understanding of analytical concepts

Business Intelligence Analyst
EXPORT DEVELOPMENT CANADA

Jun. 2020 - Present
Ottawa, ON

- Implemented **logistic regression** and **random forest classifiers** in **R** to predict client retention and conversion for EDC insurance products within a specified timeframe
- Performed **exploratory data analysis** on customer retention and conversion rates, working with the **tidyverse** to create data visualizations and tables for **PowerPoint** presentations
- Developed and maintained dashboards in **PowerBI** and **Excel** to provide summaries of targets and results for senior management and clients
- Produced weekly financing reports and automated multiple steps by using macros, functions (**vlookup, index & match**) and running **SAS EG** projects & process flows
- Mentored and provided guidance to new interns, ensuring a seamless transition into their new role

Medical Data Analyst
GLOBALDATA PLC

Sep. 2020 - Sep. 2021
Toronto, ON

- **Automated** multiple steps for a global medical device pricing tool, including data cleaning & **winsorization** in **Python**, **pivot tables & macros** in Excel, reducing analyst hours by more than **50%**
- Utilized **Pandas** in **Jupyter Notebook** to create an **ETL pipeline** for multiple medical device markets in the pricing tool, increased production speed and contributed a new methodology to the team
- Performed frequent health checks on the **Medical Intelligence Centre** and core databases to ensure that clients have access to the most accurate and latest information
- Wrote articles and press releases about topics related to the medical device industry to promote GlobalData's profile and capture the attention of news outlets

Data Analyst & Statistical Consultant
UNIVERSITY OF TORONTO

Sep. 2019 - Jun. 2020
Toronto, ON

- Performed data cleaning, wrangling and visualization on millions of rows of data using **dplry, tidyr, ggplot2** and wrote reports in **RMarkdown** explaining analytical concepts for non-technical clients
- Analyzed differences between groups using **ANOVA** to investigate pay equity among agriculture workers and used **linear regression** models to answer business problems relating to a consulting firm's online platform
- Built an **ETL pipeline** in **RStudio**, taking raw datasets as inputs to produce a consolidated file that is ready for analysis

Research Assistant
ROTMAN SCHOOL OF MANAGEMENT

May 2018 - Aug. 2019
Toronto, ON

- Obtained access to the **Scopus RESTful API** using **pybliometrics** (a Python-based API-Wrapper), built a **data pipeline** in Jupyter Notebook using **Pandas dataframes** and extracted datasets after reshaping and joining dataframes
- Manipulated, merged and extracted information from large datasets in **Stata** to create new datasets

EDUCATION

University of Toronto
MASTER OF SCIENCE

2021 - 2022 (Expected)

- **Biostatistics**

HONOURS BACHELOR OF SCIENCE

2016 - 2020

- **Applied Statistics Specialist**, Mathematics Minor
